

## **THINK VISEGRAD V4 THINK-TANK PLATFORM**

The V4 Think Tank Platform has the ambition of becoming a new and efficient instrument that would enhance cooperation within the Visegrad Group. Its main aim is to create a platform for regular and structured dialogue and for the exchange of views and ideas among the Visegrad experts from the non-governmental sector. Besides creating a network of experts on Visegrad issues, the V4 Think Tank Platform could also serve as a source of new proposals and recommendations for the governments of the Visegrad countries, the Visegrad Group presidencies and the International Visegrad Fund.
