Ilin STANEV is Deputy Editor in Chief of Capital Newspaper Bulgaria. He writes on energy, politics and EU affairs. For four years Stanev was Capital's correspondent in Washington, DC. In recent years Stanev has covered the fate of the big energy projects as the Nuclear Power Plant Belene, the South Stream, Nabucco and TAP pipelines, as well as energy market liberalization, the renewable energy spike and the impact of the EU regulation on the local markets. Stanev is graduate of Sofia University "St. Kliment Ohridski" and the Central European University.

Christof VAN AGT joined the International Energy Programme of the Clingendael Institute for International Relations in January 2009 (www.clingendael.nl) as Senior Research Fellow on Eurasian energy sector affairs. He publishes regularly and informs government-industry stakeholders on energy security, market and governance trends. He lectures at Clingendael Academy and presents at various conferences and meetings.

From 2001 to 2007 he managed energy policy initiatives with Caspian and Central Asian States for the Office for Global Energy Dialogue of the International Energy Agency in Paris. This involved in-depth analysis of regional oil and gas market dynamics and coordination of stakeholder dialogue between IEA member states, industry and governments of the Caspian Sea region. From

1996 to 2001 he administered technical assistance projects in Central Asia and the South Caucasus on interstate oil and gas networks for the European Commission and assisted in negotiations on the Energy Charter Treaty, Transit Protocol and Model Agreements on Cross Border Pipelines at the Energy Charter Secretariat in Brussels.

Christof van Agt coordinated various projects on energy sector reform in the Newly Independent States working with the International Institute for Energy Law at the University of Leiden from 1992 to 1996. He studied Slavonic Languages and Sovietology in Leiden from 1986 to 1991.

László VARRÓ is the Head of Gas Coal and Power Division. The division undertakes the analysis of gas, coal and electricity markets and policy developments with a special focus on supply-demand balance, capacity investments, supply security issues as well as the implications of climate policy for the gas and electricity systems. Before joining the IEA in 2011, Laszlo worked in the private sector as the Director for Strategy Development at MOL Group, a publicly quoted integrated energy company. There he was responsible for demand and price forecasting, investment capital allocation and the incorporation of energy policy developments into corporate strategy. Before MOL Group, he was the Head of Economics and Price Regulation at the Hungarian Energy Office, the national gas and electricity regulator in Hungary. His main projects at the regulator included unbundling and establishment of network tariffs, renegotiation of pre market opening power purchase agreements as well as the introduction of feed-in tariffs for renewable energy.

Laszlo is an economist by training with graduate degrees from the Corvinus University in Budapest and the University of Cambridge.

István ZSOLDOS is the Chief Economist at MOL Group. Previously he worked in various analyst positions in the financial sector, most recently as Central European Economist for Goldman Sachs. Earlier he had worked for the Research Department of the Hungarian National Bank. He holds a Master's degree from Cambridge University and the Budapest University of Economics, and was a Fulbright Scholar at the University of California at Berkeley.
